## SN-83720 METAL STAIR NOSING

This screw-down step edge profile is designed specifically for wooden and laminate floors and offers height adjustability between 12-18mm. The metal finish is an attractive modern alternative to wooden nosing, as well as promoting safety with its non-slip surface.

**H 12-18mm L 8.85'**

Please call our office at **416-923-8181** for further information, finish options and customization possibilities to cater to your design project.
